Summary

Passionate Full Stack Developer with hands-on MERN experience, driven to build seamless user experiences and efficient backend systems. Proficient in building real-world applications with clean code and modular architecture. Eager to contribute to innovative teams and make impactful solutions.

Technical Skills

- **Languages:** JavaScript, HTML, CSS, SQL, Python
- **Technologies:** React.js, Redux, Node.js, Express.js, MongoDB, Firebase, Tailwind CSS
- **Tools:** Git, Postman, VS Code

Education

Bachelor of Computer Applications (BCA)

Deogiri Institute of Management Technology, Aurangabad

2019 – 2022

CGPA: 7.3

Professional Experience

System Administrator | Wipro (Whirlpool Corporation)

June 2022 – Oct 2024

- Managed and optimized Windows and Linux servers, increasing system reliability by 15
- Enforced IT security protocols and implemented timely patch updates, reducing breaches by 99.9
- Automated server monitoring and alerts using internal scripts/tools, enhancing uptime and incident response.
- Maintained Active Directory, handled user access controls, and supported core network infrastructure.
- Collaborated with cross-functional teams to improve documentation and incident resolution procedures.

Projects

Personal Portfolio Website (React.js, Firebase, Three.js)

Portfolio Link

- Showcased skills, projects, and contact info in a modern responsive UI.
- Integrated Firebase to store contact form submissions in real-time.

Employee Task Distribution System (React.js, Tailwind CSS)

GitHub Link

- Developed a task management dashboard for admins and employees with real-time task updates.
- Built reusable components and implemented task filtering based on status.
- Followed component-based design and proper state/props management.

Note Creation App (MERN Stack)

Live Demo

- Created a full-stack note-taking app using MERN Stack and JWT-based authentication.
- Integrated Web Speech API for voice-based note creation.
- Responsive UI with intuitive design, deployed on Vercel.
